A) 22% approx                      B) 17% approx                      C) 19% approx                      D) Can't be determined
37. A can do a piece of work in 12 days. A and B completed the work together and were paid ₹ 54 and ₹ 18 respectively. How many days must have they taken to complete the work?  
A) 8 days                      B) 9 days                      C) 10 days                      D) 12 days
38. Three pipes A, B and C can fill a tank in 6 hour. After working at it together for 2 hours, C is closed and A and B can fill the remaining part in 7 hours. The number of hours taken by C alone to fill the tank is  
A) 10                      B) 12                      C) 14                      D) 16
39. Without any stoppage, a person travels a certain distance at an average speed of 42 km/hr and with stoppages he covers the same distance at an average speed of 28 km/hr. How many minutes per hour does he stop?  
A) 14 minutes                      B) 15 minutes                      C) 28 minutes                      D) 20 minutes
40. A jar contains a mixture of two liquids A and B in the ratio 7 : 5. When 9 litres of mixture are drawn off and the jar is filled with B, the ratio of A and B becomes 7 : 9. How many litres of liquid A was contained by the jar initially?  
A) 25                      B) 21                      C) 20                      D) 10
41. Find the odd number from the given alternatives:  
10, 13, 234, 681, 997  
A) 10                      B) 234                      C) 13                      D) 681
42. If 'A \$ B' means 'A is brother of B', 'A @ B' means 'A is wife of B', 'A # B' means 'A is daughter of B', 'A \* B' means 'A is father of B', then which of the following expressions indicates the relationship 'K is father - in-law of H'?  
A) H @ J \$ L # P \* K                      B) H @ J \$ P \* L # K  
C) H @ J \$ L # K \* P                      D) H @ P \$ J \* L # K
43. Eleven students A, B, C, D, E, F, G, H, I, J and K are sitting in the first row of the class facing the teacher. D who is to the immediate left of F is second to the right of C. A is second to the right of E, who is at one of the ends. J is the immediate neighbour of A and B and third to the left of G. H is to the immediate left of D and third to the right of I.  
Which of the following statements is true in the context of the above sitting arrangements?  
A) There are three students sitting between D and G.  
B) K is sitting between A and J.  
C) B is sitting between J and I.  
D) G and C are neighbours sitting to the immediate right of H.
44. Rajat is fifteenth from the front in a column of boys. There were thrice as many behind him as there were in front. How many boys are there between Rajat and the seventh boy from the end of the column  
A) 33                      B) 34                      C) 35                      D) Data inadequate
45. Find the number of triangles in the given figure:

- A) 11                      B) 13                      C) 15                      D) 17

46. Which of the following statement(s) is/are true with regard to word processing software?  
 P: Word Art is set of images provided by Microsoft office, which can be used in the document.  
 Q: Clip Art is stylish text styles provided by Microsoft office.  
 A) P only                      B) Q only                      C) Both P and Q                      D) Neither P nor Q
47. The value of the cell containing the formula = SUMIF(A1:A6, ">50", B1:B6) in the following Excel worksheet is:

	A	B	C
1	45	35	
2	30	85	
3	75	10	
4	15	55	
5	25	20	
6	65	15	
7			

- A) 45                      B) 195                      C) 25                      D) 210
48. Microsoft Office PowerPoint comes with several categories of built-in transition effects. Which of the following is not a type of transition effect supported by Microsoft PowerPoint?  
 A) Subtle                      B) Speed                      C) Exciting                      D) Dynamic content
49. In Windows Operating System, Disk Defragmenter utility:  
 A) Regroups fragmented sectors on a hard drive.  
 B) Regroups pieces of files together on a hard drive.  
 C) Compresses fragmented files.  
 D) Both A) and C)
50. Which of the following lists memory types from highest to lowest speed?  
 A) secondary storage, main memory, L2 cache, registers  
 B) registers, L1 cache, secondary storage, main memory  
 C) registers, L2 cache, main memory, secondary storage  
 D) L1 cache, registers, main memory, secondary storage
51. Which of the following mountains is located near the river Dhauliganga  
 A) Nanda Devi                      B) Anamudi                      C) Hathi Darvat                      D) Kamet
52. Which of the following Himalayan peaks is NOT located in Nepal:  
 A) Mount Everest                      B) Kamet                      C) Annapurna                      D) Makalu
53. Sardar Sarovar Dam is situated in the state of \_\_\_\_\_ and on the river \_\_\_\_\_.  
 A) Gujarat, Narmada                      B) Maharashtra, Krishna  
 C) Uttar Pradesh, Ganga                      D) Rajasthan, Chambal
54. The McMahon line is a line which separates China and which Indian State:  
 A) Sikkim                      B) Uttarakhand                      C) Jammu and Kashmir                      D) Arunachal Pradesh
55. In which Seismic Zone is the Union Territory of Chandigarh situated:  
 A) III                      B) IV                      C) V                      D) VI
56. How many states border with Chattisgarh  
 A) 5                      B) 6                      C) 7                      D) 8
57. Zero mile centre in India is in  
 A) Jhansi                      B) Bhopal                      C) Nagpur                      D) Raipur
58. Which one of the following points is said to be the lowest point in India  
 A) Kuttanad                      B) Kakinda                      C) Kurnool                      D) Kadapa
59. Which of the following is not a component of Human Development Index:  
 A) Life Expectancy                      B) Expected and Average years  
 C) Infant Mortality Rate                      D) GDP per capita
60. Development that meets the needs of the present without compromising the ability of future generations to meet their own needs is :  
 A) Human Development                      B) Sustainable Development  
 C) Steady State Development                      D) Holistic Development
61. The shape of Indifference curve if  $MRS_{xy}$  is Zero:  
 A) Parallel to X-axis                      B) Parallel to Y-axis  
 C) Downward sloping straight line                      D) Indeterminate

62. Income Elasticity of demand for necessities is :  
 A) Zero                      B) One                      C) Between 0 and 1                      D) More than one
63. Quasi Rent is :  
 A) Total Revenue – Total variable Cost                      B) Average Revenue – Average Cost  
 C) Total Earning – Transfer Earning                      D) Actual Earning – Transfer Earning
64. MPS of an economy is  $\frac{2}{3}$ <sup>rd</sup> of its MPC, the Multiplier will be :  
 A) 1.5                      B) 3                      C) 0.6                      D) 2.5
65. The total foodgrain production in India in 2022-23, according to recently released advanced estimate is approximately:  
 A) 325.75 million tones                      B) 330.5 million tones  
 C) 315.7 million tones                      D) 320.5 million tones
66. Which is systematic record of all the economic transactions between one country and rest of the world:  
 A) Balance of trade      B) Balance of transactions      C) Budget      D) Balance of payments
67. The falling of bank rate by Reserve Bank of India leads to :  
 A) less liquidity in the market  
 B) more liquidity in the market  
 C) mobilization of more deposits by the commercial banks  
 D) no change in the liquidity in the market
68. What is the base year of All India Consumer Price Index?  
 A) 2011                      B) 2012                      C) 2014                      D) 2016
69. As per 2011 census, about what percent of the total workforce in India was engaged in agricultural and allied sector activities?  
 A) 42.8                      B) 54.6                      C) 62.4                      D) 68.2
70. Which of the following period, is most associated with Chandra Gupta Maurya?  
 A) 498-321 B.C.                      B) 321-297 B.C.      C) 297-231 B.C.                      D) 231-197 B.C.
71. Who was the eldest son of Guru Gobind Singh?  
 A) Sahibzada Ajit Singh                      B) Sahibzada Fateh Singh  
 C) Sahibzada Jujhar Singh                      D) Sahibzada Zorawar Singh
72. At which session of Indian National Congress the Swaraj Party was formed?  
 A) Belgaum                      B) Gaya                      C) Calcutta                      D) Lahore
